PROFESSIONAL SUMMARY

Frontend Developer with a strong focus on building responsive, high-performance web applications using modern JavaScript frameworks. Proficient in React.js, TailwindCSS, and Vercel deployment workflows. Demonstrated commitment to collaborative development by producing clean, maintainable code and working closely with teams to enhance user experiences through intuitive UI design. Currently seeking to advance my career in a fast-paced tech environment where I can contribute to scalable frontend solutions and master advanced web technologies.

WORK EXPERIENCE

- Head of Financial Affairs (Village Treasurer) | Village Government**

Dec 2020 – Feb 2023

 - Built NextJs welfare system for 1,500+ residents,boosting aid distribution efficiency by 45%.
- Bank Teller | Bank Mandiri**

Aug 2023 – Oct2025

 - Processed 80+ daily financial transactions (deposits/forex) with 100% accuracy.

PROJECTS EXPERIENCE

- Project Name : Dafixel Marketing Agency Website**

[Live demo](#) | [Github](#)

 - Architected a centralized client-side animation wrapper (wrapper-motion.tsx) for Motion, preserving React Server Component (RSC) architecture and reducing unnecessary client-side JavaScript execution across pages.
 - Engineered a modular design system featuring reusable UI primitives (Button, Input, Textarea) utilizing cva, clsx, and tailwind-merge to ensure type-safe variant management and shadcn-like developer experience.
 - Delivered high-performance, responsive layouts with optimized fluid animations and dynamic carousels across all viewport sizes.
- Project Name : QuickServe-POS**

[Live demo](#) | [Github](#)

 - Engineered a global cart state management system using Zustand, handling complex transactions including item additions, quantity updates, dynamic tax, discount calculations, and total order summaries.
 - Designed a modular API service layer with Axios to integrate product endpoints, ensuring clean separation of concerns, maintainability, and streamlined data fetching.
 - Developed a custom useDebounce hook for real-time product search to minimize redundant API requests and enhance UI rendering performance.

EDUCATION

University of Muhammadiyah Malang, Malang, Indonesia
Bachelor's Degree in Informatics Engineering

CORE SKILLS

HTML	JAVASCRIPT / TYPESCRIPT	TAILWINDCSS / CSS	REACT / NEXTJS
CERTIFICATIONS	JavaScript Algorithms- freeCodeCamp	Front-End Development - freeCodeCamp	
LANGUAGES	Indonesia (Native)	English (Intermediate)
